

VEJLE

DK-101

I'm James May - Toy designer and professional child.

I'm designing construction kits focused more on local landmarks - for the people who live there who are proud of the places they call home, as well as fun souvenirs for people visiting from out of town.

I first moved to Vejle in 2021 and fell in love with this town, so much so that when I left a certain brick-based toy company I decided to stay here!

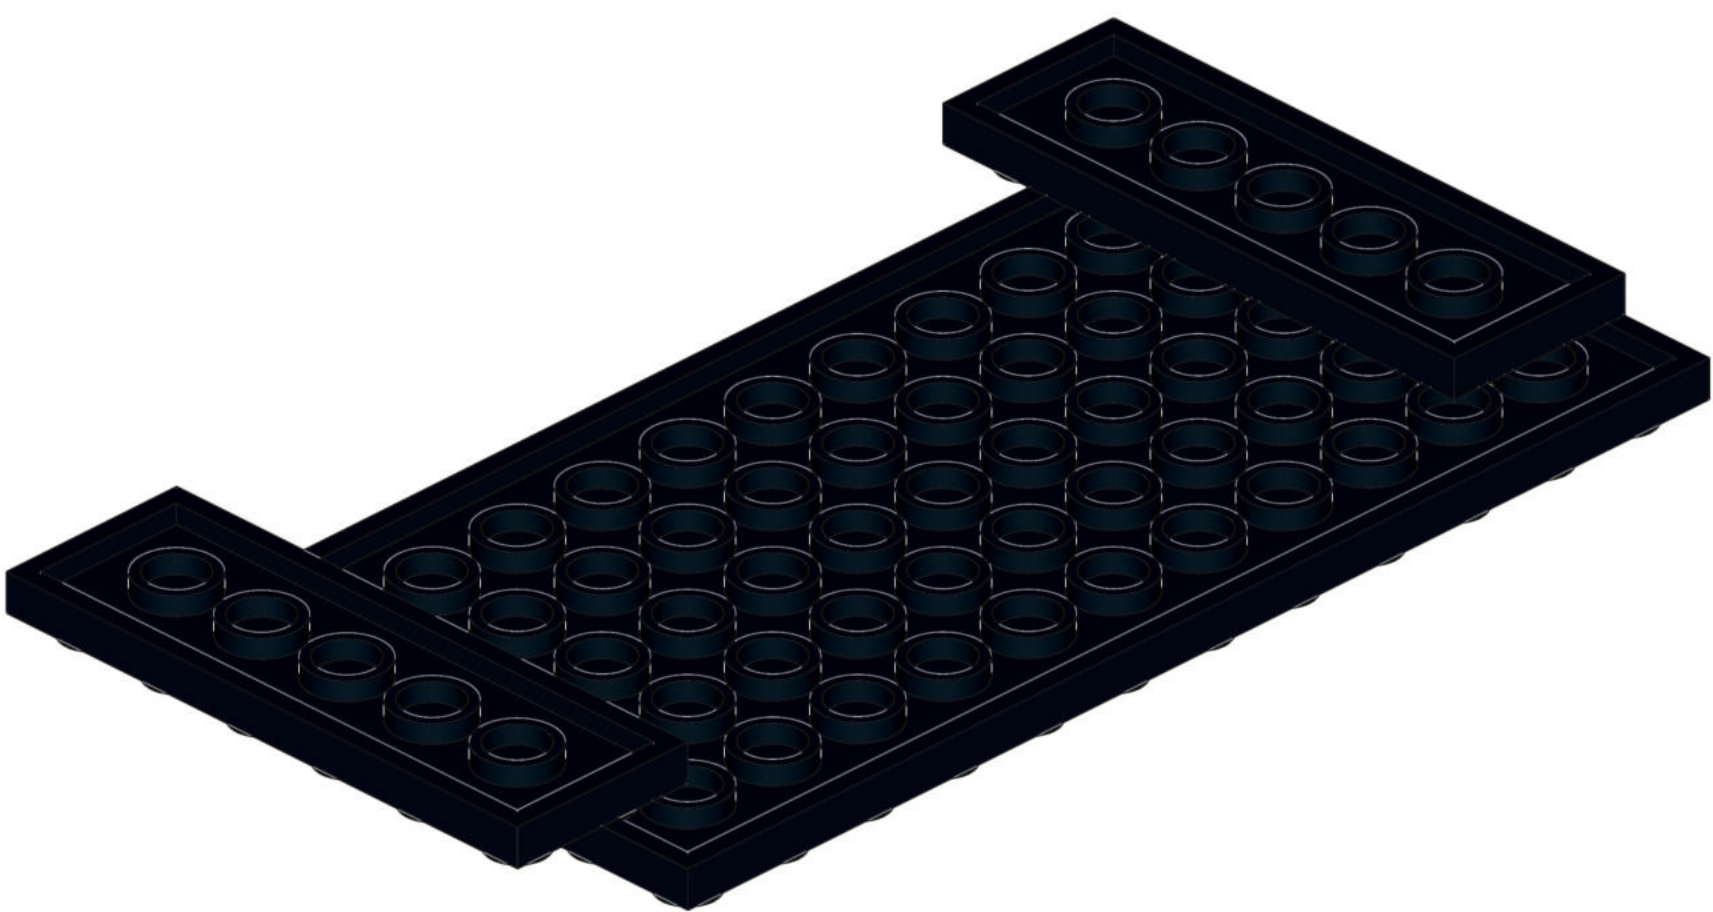

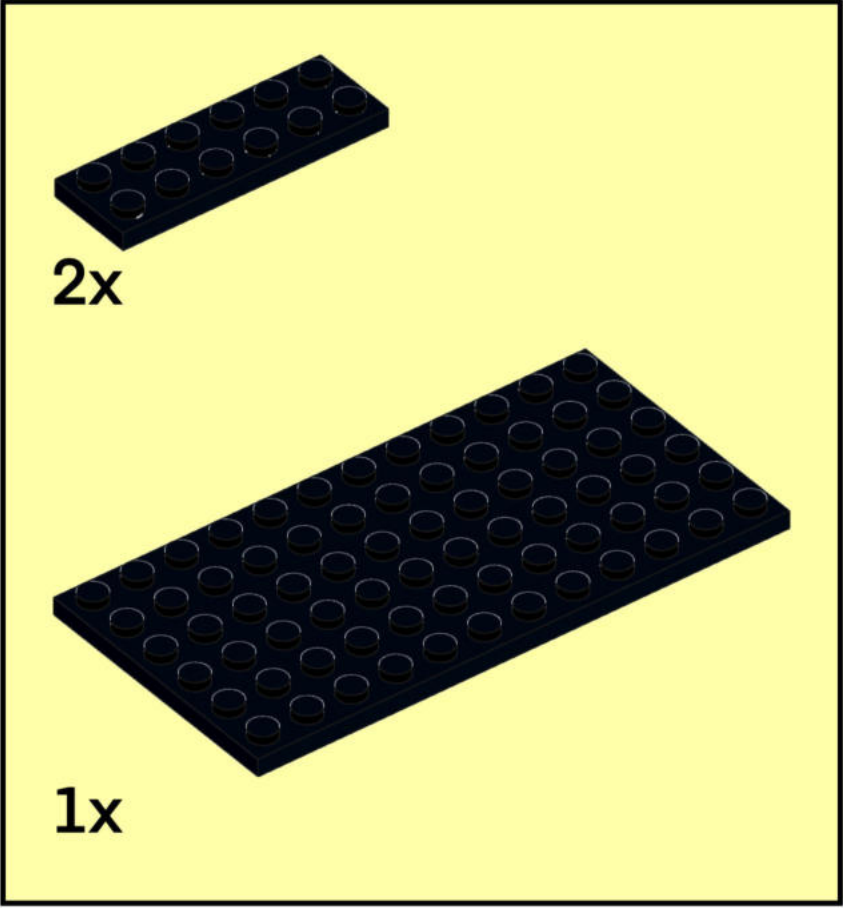

I love the vibrant centre of town along the walking street, the adorable deer in the park and the amazing beaches, canals and lakes to walk around. And as someone from Scotland, Vejle's beautiful fjord landscape is the closest I will get to The Highlands in Denmark so I appreciate it for that too...

I hope you enjoy building this model as much as I enjoyed designing it!
